

Regulatory Specialist (m/f/d)

Stellenanbieter: ABO Wind AG

Beschreibung:

Work with us on a sustainable energy supply!

ABO Wind has been successfully developing and implementing renewable energy projects since 1996. Every year, we build plants with an average investment volume of 500 million euros. Around 800 employees worldwide work with enthusiasm on the project development, financing, construction, operational management and maintenance of wind and solar farms, battery, and hydrogen projects.

Join our team in Calgary, Canada, as an

Regulatory Specialist (m/f/d)

Responsibilities

- Support senior staff in acquisition of land, interconnection, and permitting of renewable energy projects across North America
- Assist in securing and sustaining compliance with all regulatory requirements associated with site permits and approvals to construct and operate renewable projects
- Support and provide oversight of biophysical baseline studies for environmental features
- Support regulatory assessment and due diligence reviews of proposed mergers, acquisitions, or greenfield developments
- Monitor local and regional initiatives relating to regulation and changes to regulatory requirements for new and existing renewable energy assets
- Support project managers/developers in overseeing, updating, and executing project budgets and schedules relating to regulatory requirements and timelines

Qualifications

- Academic degree preferably with a discipline in sustainable energy, planning, or environment
- 4+ year professional record of regulatory, permitting and/or environmental renewable project experience
- Knowledge of multi-provincial and federal government regulatory requirements related to renewable energy development
- Must be organized and able to manage and prioritize several projects at once
- Strong technical, communication, and organization skills

- Experience working with local First Nations and Indigenous communities is preferred
- Enthusiastic about the future of renewable energies and dedicated to pursuing a career in sustainable energy
- Ability to accurately record and prepare technical documentation

Our Offer

We offer interdisciplinary teamwork in a successful and dynamic company. You will work on a variety of tasks in a friendly and competent team.
