# Risk Manager (m/w/d) in Energy Risk Management

📍 Hamburg    🏢 Permanent    ⌚ Full-time

## Introduction

Welcome to the world of Encavis! At Encavis, everything revolves around the power of the sun, the wind and the more than 200 people who together are helping to shape the energy system of the future. What exactly do we do? We make renewable energy economically viable. Our core business is the acquisition and operation of solar and wind parks

---

throughout Europe. Already today, we are one of the leading group-independent electricity

producers in the field of renewable energies. And we are continuing to grow. What does that mean for you? The opportunity to move, shape and change a lot. As part of a multinational team that enjoys helping the energy transition to succeed.

There is a lot to be said for your move to Encavis - but your expertise and experience speak for themselves! What can you expect with us? Varied tasks in a team in which you will quickly take on a key role in the management of energy risks to actively support the continuous development of your and other departments.

## Your Tasks

- Manage Encavis' growing Solar and Wind portfolio in changing energy markets by generating insights on risks and opportunities
- Support Energy Risk Management and other departments with quantitative analysis required for hedging and investment decisions across different European markets
- Actively contribute to improve and further develop Encavis Energy Risk Management monitoring, reporting and processes
- Coordinate risk management activities, perform reviews and discuss results with the responsible management
- Ensure strong cooperation within the project teams for all topics related to risk management

## Your Profile

- Academic degree in natural sciences, economics, statistics or equivalent
- Passionate about the energy transition and renewables
- Ideally already 3-5 years of work experience (practical experience in Origination/Trading/Risk Management departments is a plus)
- Ability to quickly dive into complex matters and communicate quantitative insights in understandable terms
- Confidence engaging external and internal stakeholders and advising business leaders
- Experience in data analysis using R/Python/Matlab is advantageous
- Very good language skills in German and English are required
